Individual Well Summary

Well Name: Brigham City # 2
API No: 43-003-20057
Location: Legal description for this location is not available-Sec. 22 T. 9N, R. 2W, Box Elder County, Utah
Last Known Operator: Christon & Davis-Address unknown
Lease: Fee
Well Status: Shut in, subsurface water leak.

Inspection History:

8-27-86 Inspection by Carol Revelt. Found 3 wells on this location. Brigham City # 1 was PA'd in 1944?. Everything is ok. Brigham City # 2 dry hole marker is in the middle of a sink hole/erosion cavity filled to within 8' of surface with bubbling water (cavity is approximately 15' in diameter). Carol commented that this is a very "dangerous location", tried to get landowner to fence location of the #2 well. Other than this she was not sure what course of action to follow, because the operator is no longer in existence.

12-28-88 Lead inspector assigned this well to another inspector to research as to ownership etc..

2-14-89 Michael Laine reported no state surface or mineral leases in section 22. No bond; found original oil and gas lease at the Box Elder County court house.

2-22-89 Inspection by Michael Laine. Dry hole marker in the middle of a 10' diameter sink hole filled with water. Landowner has been attempting to fill hole with concrete debris with limited success. Sink hole is not fenced and is located in the middle of a pasture. Spoke to Pete Clawson (landowner) 3139 N. 2800 W. Brigham City (1-744-5116), recommended that he fence sink hole. He is considering fencing and recommended that DOGM recheck location in the spring.

Correspondence History:

Information on card file: Well information obtained from Edgar B. Heylmun, 1961, who got it from a personal report which did not contain any other information. Gas zones @ 325' & 480'-550'.

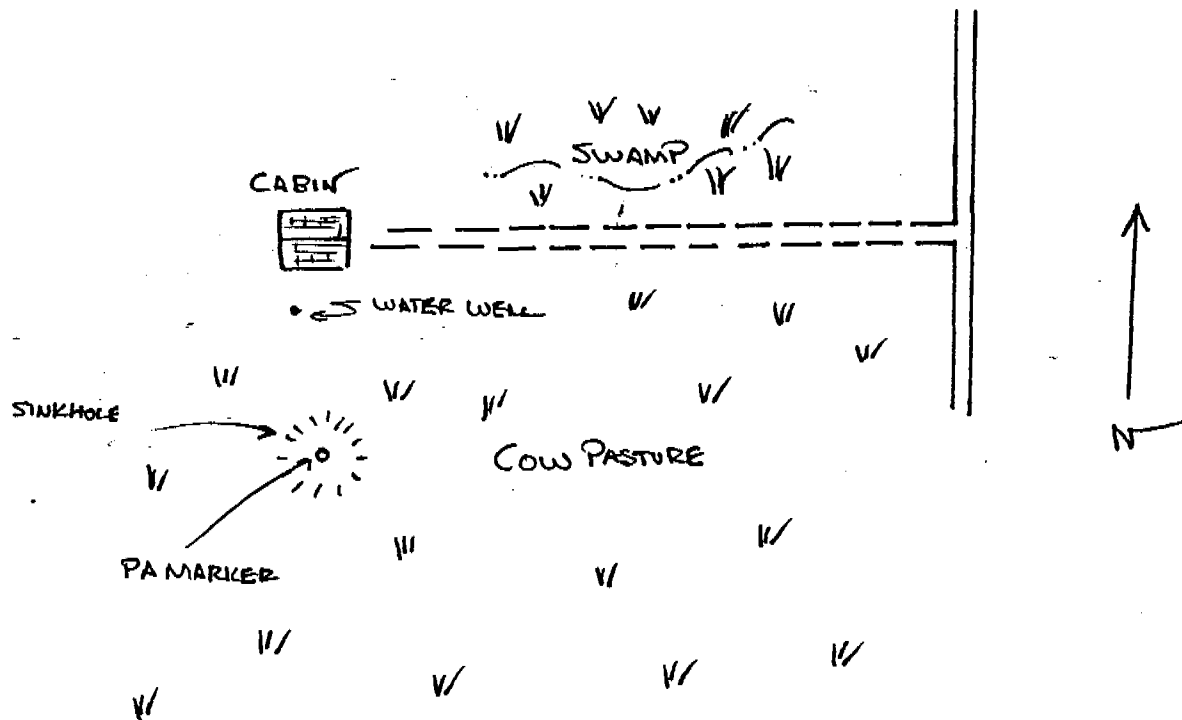

Problem Summary:

Well has a subsurface water leak, with a large cavity around wellhead.

Recommended Action:

Well should be re-entered and properly plugged and abandon.

In the event that Oil and Gas, or both be discovered on the premises mentioned in this lease, then the party of the second part agrees to assign to the party of the first part Ten % per cent (10%) of the production from this property for the term of this lease that oil, or gas, or both be produced, and the party of the first part shall consider this lease to be perpetual as long as the aforesaid royalty be paid by the party of the second part, as long as oil, or gas be produced from these premises.

The party of the second part is to have and hold the said premises for, and during the term of 5 years from date hereof, and as long thereafter as oil, or gas is produced in paying quantities.

The said party of the first part to fully use said premises for the purposes of tillage, except such parts as may be necessary for said mining purposes, and the right of way over and across said premises to the place of operating, to have the right to move all machinery fixtures and buildings placed on said premises by the party of the second part, or those acting for him. The said party of the second part agrees that the party of the first part shall have free gas from the premises, if gas be produced from the premises over and above that is necessary for running second parties boilers and engines.

The party of the second part agrees to pay all damages caused by trespassing and further agrees to refill all holes made from pulling or casings or any other destruction of said

premises. The party of the first part shall at no time be responsible for any indebtedness caused by the party of the second part.

It is further agreed, that the second party shall have the right at any time, to surrender this lease, and the payments which shall have been made to the party of the first part shall be held by him for remuneration.

And the said Percilla Jensen wife of the said party of the first part, hereby agrees to this agreement and lease given to the party of the second part.

In Witness Whereof, we, the said parties of the first and second parts, have hereunto set our hands and seals the day and year first above written.
